

Purchaser and Lab Assistant

About Applied Biomimetic (AB)

Applied Biomimetic Inc. (www.appliedbiomimetic.com)

Applied Biomimetic is an international biomimetic engineering group that builds upon a simple but powerful concept: Nature's ability to separate chemical elements at the molecular level using highly specialized proteins as tools such as the selective aquaporin water channel that brought the 2003 Nobel Prize in Chemistry to its discoverer.

AB has developed a concept where they maintain the superior water transport capabilities of the aquaporin water channel while embedding it into a robust polymer structure thus allowing the company to make membranes applicable for industrial purposes.

AB is focusing on the development of a wide range of applications for its patented technology. The aim is to provide disruptive solutions for the water treatment, health, food, and other industries enabling these industries to enhance their products, reduce costs, and save energy. The membranes are designed to withstand changing and sometimes harsh environment in various industrial applications.

AB Inc. has more than 10 employees. We are looking for a dedicated and highly motivated Purchaser and Laboratory Assistant to join in our membrane research team. The Purchaser & Laboratory Assistant will be working with other members of the company. The primary tasks include coordination of ordering, purchasing, shipping and receiving lab supplies and monitoring inventories.

Main tasks and responsibilities:

- Coordination of the ordering, purchasing, shipping, and receiving of lab supplies and equipment
- Maintaining control over inventory needs
- Monitoring lab budgets
- Minor trouble-shooting of lab equipment
- Handling of lab invoices
- Handling of chemical waste removal
- Deliverables accountability, status updates and other relevant communication to the manager.
- Participate in the general upkeep and maintenance of the laboratory facilities and equipment

The qualified candidate must have:

- A.S or B.A degree in life sciences
- 1-2 years of experience in purchasing and inventory keeping
- Good communication and team player

- Ability to thrive in a fast-paced environment, work flexible hours if required, and deliver results under pressure
- Ability to work independently and maintain a high level of quality work
- US work permit

Preferred Skills and Experience:

- Basic knowledge and experience working with hazardous chemicals.
- Strong writing and communication skills.
- Proficiency with Microsoft Office

In addition to a challenging and interesting work environment and the opportunity to work on ground-breaking technology we are offering an attractive compensation and benefit package incl. health, dental and 401k etc.
